

AUTHOR INDEX

- Andreasen, V., *see* Iwasa, Y. et al.
- Aoki, I. (Osaka, Japan)
 Entropy balance in Lake Biwa 235
- Ashton, P.J., *see* Cochrane, K.L. et al.
- Bertonati, M. (Piacenza, Italy), Dejak, C., Mazzei Lalatta, I. and Pecenik, G. (Venice, Italy)
 Eutrophication model of the Venice Lagoon: statistical treatment of 'in situ' measurements of phytoplankton growth parameters 103
- Cochrane, K.L., Ashton, P.J., Jarvis, A.C., Twinch, A.J. and Zohary, T. (Pretoria, South Africa)
 An ecosystem model of phosphorus cycling in a warm monomictic, hypertrophic impoundment 207
- Dejak, C. and Pecenik, G. (Venice, Italy)
 Editorial special issue *Mathematical Modelling of Eutrophication and Dispersion in the Lagoon of Venice* vii
- Dejak, C., Mazzei Lalatta, I., Meregalli, L. and Pecenik, G. (Venice, Italy)
 Development of a mathematical eutrophication model of the lagoon of Venice 1
- Dejak, C., Mazzei Lalatta, I. (Venice, Italy), Messina (Rome, Italy) and Pecenik, G. (Venice, Italy)
 A two-dimensional diffusion model of the Venice Lagoon and relative open boundary conditions 21
- An advection-diffusion pollution model of the lagoon of Venice 47
- Steady-state achievement by introduction of true tidal velocities in a pollution model of the Venice Lagoon 59
- Dejak, C., Mazzei Lalatta, I., Molin, M. and Pecenik, G. (Venice, Italy)
 Tidal three-dimensional diffusion in a model of the lagoon of Venice and reliability conditions for its numerical integration 81
- Dejak, C., *see also* Bertonati, M. et al.
- Gatto, M. (Milan, Italy)
 Book review of *The Ecology of Natural Disturbance and Patch Dynamics*, by S.T.A. Pickett and P.S. White (Editors) 322
- Gold, H.J., Kendall, W.L. and Shaffer, P.L. (Raleigh, NC, U.S.A.)
 Nonlinearity and the effects of microclimatic variability on a codling moth population (*Cydia pomonella*): a sensitivity simulation 139
- Harmsen, R., *see* Woolhouse, M.E.J. and Harmsen, R.
- Henderson-Sellers, B. (Salford, Great Britain)
 Plume rise modelling: the effects of including a wind shear and a variable surface roughness 269
- Iwasa, Y., Andreasen, V. and Levin, S. (Ithaca, NY, U.S.A.)
 Aggregation in model ecosystems. I. Perfect aggregation 287
- Jameson, D.A. (Fort Collins, CO, U.S.A.)
 Book review of *Mathematical Methods in Human Geography and Planning*, by A.G. Wilson and R.J. Bennett 324

- Jarvis, A.C., *see* Cochrane, K.L. et al.
- Jørgensen, S.E. (Copenhagen, Denmark)
 Book review of *Advances in Microbial Ecology, Vol. 8*, by K.C. Marshall (Editor) . . . 317
 Book review of *Pollination Biology*, by L. Real (Editor) . . . 318
- Kendall, W.L., *see* Gold, H.J. et al.
- Levin, S., *see* Iwasa, Y. et al.
- Liu D.S. and Zhang S.M. (Nanjing, People's Republic of China)
 Kinetic model for degradative processes of pesticides in soil . . . 131
- Longstaff, B.C. (Canberra, A.C.T., Australia)
 Book review of *Population Dynamics of Rabies in Wildlife*, by P.J. Bacon (Editor) . . 320
- Mazzei Lalatta, I., *see* Bertoni, M. et al.
- Mazzei Lalatta, I., *see* Dejak, C. et al. (pp. 1, 21, 47, 59, 81, 103)
- McLellan, A.R., *see* Rowland, C.M. and MacLellan, A.R.
- Meregalli, L., *see* Dejak, C. et al. (p. 1)
- Messina, E., *see* Dejak, C. et al. (pp. 21, 47, 59)
- Miller, R.J., *see* Mohn, R.K. and Miller R.J.
- Mohn, R.K. and Miller, R.J. (Halifax, N.S., Canada)
 A ration-based model of a seaweed-sea urchin community . . . 249
- Molin, M., *see* Dejak, C. et al. (p. 81)
- Pecenik, G., *see* Bertoni, M. et al.
see Dejak, C. and Pecnik, G.
- Pecenik, G., *see also* Dejak, C. et al. (pp. 1, 21, 47, 59, 81, 103)
- Rowland, C.M. (Basel, Switzerland) and McLellan, A.R. (Edinburgh, Great Britain)
 Seasonal changes of drone numbers in a colony of the honeybee, *Apis mellifera* . . . 155
- Shaffer, P.L., *see* Gold, H.J. et al.
- Sheppard, M.I. and Sheppard, S.C. (Pinawa, Man., Canada)
 A soil solute transport model evaluated on two experimental systems . . . 191
- Sheppard, S.C., *see* Sheppard, M.I. and Sheppard, S.C.
- Twinch, A.J., *see* Cochrane, K.L. et al.
- Walker, R. (Morgantown, WV, U.S.A.)
 Regional development and renewable resource exploitation . . . 303
- Woolhouse, M.E.J. and Harmsen, R. (Kingston, Ont., Canada)
 A transition matrix model of seasonal changes in mite populations . . . 167
- Zhang S.M., *see* Liu D.S. and Zhang S.M.
- Zohary, T., *see* Cochrane, K.L. et al.
